Scanning Windows Packages Files.
Started at (8/20/2015 10:39:06 PM)

These Files Are Missing: (Total: 4)
C:\Windows\servicing\Packages\Microsoft-Windows-RetailDemo-OfflineContent-Content-en-us-Package~31bf3856ad364e35~x86~~10.0.10240.16384.cat
C:\Windows\servicing\Packages\Microsoft-Windows-RetailDemo-OfflineContent-Content-en-us-Package~31bf3856ad364e35~x86~~10.0.10240.16384.mum
C:\Windows\servicing\Packages\Microsoft-Windows-RetailDemo-OfflineContent-Content-Package~31bf3856ad364e35~x86~~10.0.10240.16384.cat
C:\Windows\servicing\Packages\Microsoft-Windows-RetailDemo-OfflineContent-Content-Package~31bf3856ad364e35~x86~~10.0.10240.16384.mum

4 Combined Problems were found with the packages files, these files need to be replaced (These mainly only effect installing Windows Updates.)
The SFC (System File Checker) doesn't scan and replace some of these files, so you may need to replace them manually.

THESE FILES DO NOT KEEP THE REPAIRS FROM WORKING; YOU MAY STILL RUN THE REPAIRS IN THE PROGRAM.

If you need help in replacing these files, post on the Forums at Tweaking.com for help.
